

PRODUCT NO. 220015

ZenXtreme™ Ceramic Wash

A high-performance ceramic wash engineered to deliver a thorough, high-lubricity clean while enhancing and protecting your vehicle's exterior. The professional-grade, advanced hydrophobic formula effectively removes dirt and road film without stripping existing waxes, sealants, or ceramic coatings. As you wash, it leaves behind a light ceramic-infused layer that boosts gloss, slickness, and water sheeting. Ideal for enthusiasts and professionals seeking maintenance-level protection with every wash. The highly concentrated formula produces maximum suds that lift, suspend, and remove road grime using a minimal amount of product, giving you maximum value and superior results with every wash.

FEATURES & BENEFITS

- Added layer of clear-coat surface protection
- Leaves vehicle surface slick and glossy
- Lifts and removes dirt and road grime effortlessly
- Sheets water off vehicles surfaces for faster, spot-free drying
- Helps reduce swirl marks and scratches
- Deepens shine and surface clarity
- Concentrated formula for user-controlled dilution

DIRECTIONS FOR USE

FOAM CANNON/FOAM GUN

1. Fill apparatus reservoir with concentrate as per dilution instructions
2. Ensure surfaces are cool to the touch and out of direct sunlight before application
3. Spray foam cannon or gun evenly over the entire vehicle and allow foam to dwell on surfaces for a few minutes, do not let the foamy soap dry
4. For areas with stubborn soils, gently wash with a microfiber mitt, rinsing the wash mitt frequently in a separate, water-only bucket

**Re-apply ceramic wash solution to wash mitt from a separate bucket with diluted water-product mixture*

5. Rinse the vehicle thoroughly when complete
6. Dry any remaining water on the vehicle surface using a microfiber towel or soft chamois to prevent water spots

BUCKET WASH/HAND WASH

1. Ensure surfaces are cool to the touch and out of direct sunlight before application
2. Rinse the vehicle thoroughly to remove any loose dirt and debris
3. Use a microfiber wash mitt to remove surface grime by washing one section of the vehicle at a time, starting from top and working down. Rinse the washing mitt or soft sponge frequently in a separate, water-only bucket.
4. Rinse each section of the vehicle before moving to the next
5. Dry any remaining water on the vehicle surface using a microfiber towel or soft chamois to prevent water spots

PRODUCT NO. 220015

ZenXtreme™ Ceramic Wash

PRO TIPS

- **USE THE TWO-BUCKET METHOD**
One bucket for rinse water, one for soapy solution to minimize swirl marks.
- **WORK TOP TO BOTTOM**
Dirt collects at the bottom, so start washing the roof and upper panels first.
- **PRE-RINSE HEAVILY SOILED AREAS**
Rinse wheels, lower panels, and rocker panels first to remove stubborn dirt.
- **CONTROL FOAM THICKNESS**
If using a foam gun/cannon, adjust dilution to your soil conditions for better clinging and cleaning.
- **DRY CAREFULLY**
Pat surfaces with a microfiber towel or chamois instead of dragging across paint to reduce scratches.
- **KEEP MITTS AND TOWELS CLEAN**
Wash after each use to prevent re-depositing dirt or causing swirl marks.
- **AVOID DIRECT SUNLIGHT**
Wash in shade or during cooler parts of the day to prevent water spots.
- **BOOST PROTECTION**
Use regularly to maintain hydrophobic performance and prolong coating or wax life.

PHYSICAL CHARACTERISTICS

PHYSICAL FORM	Liquid
COLOR	Pink
FRAGRANCE	Watermelon
GLOSS	High
SHELF LIFE	1 Year

REGULATORY

SPECIFIC GRAVITY	1.0–1.02 g/mL
FLASH POINT	Will Not Burn
PH	7–8
CA COMPLIANT	Yes
