## WATER-BASED STAINLESS STEEL POLISH

This next-generation, water-based polish is formulated to protect and restore metal surfaces such as stainless steel, chrome, brass, copper, and aluminum. It's perfect for imparting a matte finish on kitchen, bathroom, and elevator surfaces, effectively removing smudges, smears, and fingerprints. This metal polish performs exceptionally well on hard surfaces like natural and engineered granite, marble, quartz, ceramic, porcelain, and more.

### FEATURES & BENEFITS

- Produces long-lasting shine or matte finish
- Thick foam polishes as it cleans
- Leaves no greasy film and repels further soiling

### APPLICATIONS & USES

Removes tough oil-based stains, as well as water spots, spills, and soils of food origin. For use on metal finish on equipment in kitchens, laboratories, offices, restaurants, elevators, factories, on architectural steel, and in many other areas. Cloths treated with polish are not subject to spontaneous combustion and can be reused after washing in normal laundry detergents.

### DIRECTIONS FOR USE

1. Holding spray about 8 to 10 inches from surface.
2. For heavily soiled areas, allow product to soak in for about a minute before wiping off surface.
3. Wipe clean with a damp cloth.

### SIZE / AVAILABILITY

**CAN SIZE:** 20 oz  
**NET WEIGHT:** 16 oz  
**QUANTITY:** 12 per case  
**SHIPPING WEIGHT:** 17 lbs

### PHYSICAL CHARACTERISTICS

| COLOR                     | White              |
|---------------------------|--------------------|
| FRAGRANCE                 | Lemon              |
| SPRAY PATTERN             | Mist               |
| SHELF LIFE                | 1 Year             |
